

Up to 50% better heat reduction than standard corrugated sheet#

advanced weatherguard™ TECHNOLOGY

comfort cool™ TECHNOLOGY

only Laserlite® has the technology

Laserlite® is the only polycarbonate corrugated sheet product in Australia featuring

Advanced Weatherguard™ technology, a special protective material that is warranted to

- Extend the life of the sheet by up to 50%#
- Maintain sheet colour and clarity up to 50% longer#
- Provide 99.9% protection from UV rays up to 50% longer#
- Resist 25% larger hailstones#

With unrivalled technology and superior performance, it's clear why Laserlite® is part of the Australian outdoor lifestyle.

Comfort Cool™ keeps you cool and comfortable.

Laserlite 3000 is the only polycarbonate roofing product to feature Comfort Cool™ Technology, special properties in the sheet that reflect the warming effect of the sun's rays to offer

- Up to 50% better heat reduction than standard corrugated sheet#
- reduced glare for ultimate comfort

As compared to some other polycarbonate corrugated sheet products.

How it works

UV rays, wind, hail and rain have the potential to make polycarbonate resins brittle and lose colour over time. Advanced Weatherguard™ protects the sheet and protects from harmful UV radiation.

How it works

Infra red light emitted by the sun passes through polycarbonate sheet making it warm underneath. Comfort Cool™ Technology reflects the heat away whilst letting visible light through with less glare.

LASERLITE®

the solution for a professional finish

1 Noise stop tape
Reduces creaking

2 Eave infill strips
Prevents rain, dust and wind entering the eaves

3 Barge capping
Prevents wind & rain entering the gable ends

4 Metal ridge capping
Prevents roof leaking at apex

Easy to install, Laserlite® has a quality range of accessories to ensure a professional finish.

When installed against a wall

Back channel & infill
Prevents leaking at walls and fascias

Metal apron flashing
Prevents leaking at walls and fascias

Laserlite® One Shot® Time Saving Fixing System saves 50% installation time as no pre-drilling is required. They also feature a Class 4 coating for superior corrosion resistance and suitability for coastal areas.

Save 50% installation time
