

# TIME SAVER FIXING SYSTEM

Save 50%  
installation  
time

- ✔ **One Step**
- ✔ **One Tool**
- ✔ **Easy Installation**
- ✔ **Professional Finish**

## The Laserlite® OneShot® Advantage

Laserlite® OneShot® Fasteners drill through steel or timber battens in one easy action, no pre-drilling required.

### Easy installation

- No more pre-drilling means faster and easier installation.
- No extra expense of specialist tools.
- No extra effort changing tools

### Professional Finish

Laserlite® OneShot® Fasteners cut an expansion hole in the sheet that ensures your Laserlite® Polycarbonate Roofing is installed correctly, allowing for thermal expansion and contraction in all conditions.

### Installation Instructions

NOTE: For installation of roofs over 3m in height or for cyclonic regions, contact your nearest Laserlite Building Products office for special instructions. Refer to installation guidelines available at [laserlite.com.au](http://laserlite.com.au)

CAUTION: Always exercise extreme care when working on a roof. Use walking boards along purlins or battens. Never walk directly on the sheeting. Always wear safety glasses or goggles when operating cutting tools or drills.

# Timber OneShot® Fixing

## Specifications

- Coated to AS 3566 Class 4
- 12 gauge
- 11 threads per inch
- Suitable for use with treated timber
